MEMORANDUM FOR: Deputy Director of Central Intelligence  
Deputy Director (Plans)  
Deputy Director (Support)

SUBJECT: Approval of Clandestine Services Projects

1. As the Director of Central Intelligence, I am responsible for the expenditure of all funds allocated to the Agency, including the unvouchered funds authorized for the activities of the Clandestine Services. In the disbursement of unvouchered funds the maximum control and supervision must be exercised since my responsibilities in this regard are total and unique. To insure the most thorough review of individual clandestine activities known as projects and the unvouchered funds expended thereon, a comprehensive system of approvals has been established. This system prescribes that: all projects will conform with and support approved policy; all projects will be clearly within the basic authority inherent in the operational program and the operating budget of the sponsoring component, as reviewed by the Project Review Committee and approved by me. Regardless of the authority necessarily delegated by me to others to approve projects, it is essential that my responsibility be kept constantly in mind and that I be informed of all activities and expenditures through the regular and orderly system prescribed. Officials of the Agency who are authorized to approve projects will bear in mind that in so doing they act in my behalf. They are obliged to bring to my attention all questions and problems not covered by instructions. All matters involving significant new policy or any questions which reasonably indicate the desirability of a decision by higher authority will be referred upward for final action regardless of the amount of money involved or the authorization to approve.
